Surety Bonds

Bid Bond

Guarantees issued at the request of the tender for bids of construction and procurement of project, committing that the tenderer will not withdraw or amend its bid during the validity period of the bid, and will sign the contract or submit performance guarantee within the preset time once winning the bid. Solve the problem of mutual mistrust between the tender and tenderer with bank credit to realize smooth tender offer.

Performance Bond

Guarantee issued at the request of the customer to the owner of a contracted project or the buyer of a sales deal, guaranteeing the applicant will strictly perform the contracts in the pre-established terms and conditions. Guarantee proper fulfillment of contractual obligations and the quality of the subject matter of contract; solve the problem of mutual mistrust between the parties, and reduce capital occupation.

Advance Payment Bond

Guarantee issued at the request of a customer to the owner of a contracted construction or the buyer of a sales deal, guaranteeing the applicant will fulfill the contractual obligations after the owner or the buyer makes advance payment. Facilitate timely receipt of advance payment, as well as speed up capital turnover during project construction and preparation-of-goods period.

Retention Money

Guarantee issued to the owner or the buyer to guarantee that applicant will fulfill contract obligation in the warranty period or maintenance period, at the request of construction contractor or supplier. It is applicable for the situation that the owner or the buyer requires the contractor or the supplier to fulfill warranty or maintenance obligations as contracted when construction, supply and installation contracts enter into the warranty period or maintenance period.

Warranty Bond

Guarantee issued to the owner or the buyer to guarantee that applicant will continue to fulfill contract obligation after withdrawing final payment of the contract price in advance, at the request of construction contractor or supplier. The product allows the applicant to collect final payment in advance from the owner or the buyer in the later stage of executing construction contract and procurement contract, thus accelerating capital turnover and gaining capital benefits.
